

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application.

**Listing of Claims:****1. (Cancelled)**

**2. (Previously Presented)** An apparatus for identifying one or more individuals impaired by a controlled substance, said apparatus comprising:

a detection device being adapted to ascertain the degree to which an individual is affected by a controlled substance;

a photographic unit;

said photographic unit being operable, responsive to said detection device, to facilitate photographic identification of an individual tested by said detection device who is affected by a controlled substance beyond a predetermined threshold level; and

an interlock device associated with said detection device, said interlock device being adapted to engage to prevent operation of machinery if a test conducted with said detection device indicates that the individual is affected by a controlled substance beyond a predetermined threshold level.

**3. (Currently Amended)** The apparatus according to Claim 2, whereby the operation of machinery is enabled solely upon said ~~first~~ interlock device being disengaged

Atty. Docket No. 625.001

via a test conducted with said detection device indicating that an individual is not affected by a controlled substance beyond a predetermined threshold level.

4. **(Original)** The apparatus according to Claim 2, wherein:

said interlock device comprises means for providing a prompt;

said photographic unit being operable upon a prompt being provided by said interlock device.

5. **(Original)** The apparatus according to Claim 2, wherein the machinery to be operated is a motor vehicle.

6. **(Original)** The apparatus according to Claim 2, wherein said photographic unit comprises a photographic apparatus and means for storing photographic images.

7. **(Original)** The apparatus according to Claim 6, wherein said photographic apparatus and said means for storing photographic images are combined in a single, integral device.

8. **(Original)** The apparatus according to Claim 7, wherein said means for storing photographic images is adapted to facilitate the provision of at least one photographic image at a subsequent time in connection with ascertaining the identity of an individual tested via said detection device.

9. **(Original)** The apparatus according to Claim 2, wherein the controlled substance is alcohol.

10. **(Original)** The apparatus according to Claim 9, wherein said detection device comprises a breathalyzer device.

11. **(Original)** The apparatus according to Claim 10, wherein:  
  
said interlock device comprises means for providing a prompt;  
  
said photographic unit being operable upon a prompt being provided by said interlock device.

12. **(Original)** The apparatus according to Claim 11, wherein the prompt is an audible tone.

13. **(Original)** The apparatus according to Claim 12, wherein the audible tone is a buzz tone.

14. **(Previously Presented)** The apparatus according to Claim 11, wherein the prompt is responsive to the provision of a breath sample suitable for analysis by said breathalyzer device.

15. **(Original)** The apparatus according to Claim 2, wherein the controlled substance is a narcotic drug.

16. **(Previously Presented)** The apparatus according to Claim ~~12~~, wherein said photographic unit comprises a digital camera.

17. **(Previously Presented)** The apparatus according to Claim 2, wherein said photographic unit comprises a video recorder.

Atty. Docket No. 625.001

**18. (Cancelled)**

**19. (Previously Presented)** A method of identifying one or more individuals impaired by a controlled substance, said method comprising the steps of:

providing a photographic unit;

ascertaining the degree to which an individual is affected by a controlled substance;

operating the photographic unit, responsive to said ascertaining step, to facilitate photographic identification of an individual who is affected by a controlled substance beyond a predetermined threshold level; and

preventing operation of machinery if said ascertaining step yields that the individual is affected by a controlled substance beyond a predetermined threshold level.

**20. (Original)** The method according to Claim 19, wherein:

said ascertaining step comprises automatically providing a prompt;

said operating step comprises operating the photographic unit upon the prompt being provided.

**21. (Original)** The method according to Claim 19, wherein the machinery to be operated is a motor vehicle.

Atty. Docket No. 625.001

22. **(Original)** The method according to Claim 19, wherein said step of providing a photographic unit comprises providing a photographic apparatus and providing means for storing photographic images.

23. **(Original)** The method according to Claim 22, further comprising the step of facilitating, with the means for storing photographic images, the provision of at least one photographic image at a subsequent time in connection with ascertaining the identity of an individual tested in said ascertaining step.

24. **(Original)** The method according to Claim 19, wherein the controlled substance is alcohol.

25. **(Original)** The method according to Claim 24, wherein said ascertaining step comprises using a breathalyzer device to ascertain the degree to which an individual is affected by alcohol.

26. **(Original)** The method according to Claim 25, wherein:  
  
said ascertaining step comprises automatically providing a prompt; and  
  
said operating step comprises operating the photographic unit upon the prompt being provided.

27. **(Original)** The method according to Claim 26, wherein the prompt is an audible tone.

Atty. Docket No. 625.001

28. **(Original)** The method according to Claim 27, wherein the audible tone is a buzz tone.

29. **(Previously Presented)** The method according to Claim 26, wherein the prompt is responsive to the provision of a breath sample suitable for analysis by the breathalyzer device.

30. **(Original)** The method according to Claim 19, wherein the controlled substance is a narcotic drug.

31. **(Previously Presented)** The method according to Claim 19, wherein the photographic unit comprises a digital camera.

32. **(Previously Presented)** The method according to Claim 19, wherein the photographic unit comprises a video recorder.

33. **(Previously Presented)** The apparatus according to Claim 6, wherein said photographic apparatus and said detection device are combined in a single, integral device.

34. **(Previously Presented)** The apparatus according to Claim 2, wherein said photographic unit and said detection device are combined in a single, integral device.
